SECTION II - PROJECT DESCRIPTION

4) **Please describe the purpose and intent of the grant.**
 Part of SAFE's outreach efforts include a program called "SAFE Kids." Traffic collisions are the number one killer of children and young adults in the United States. It is important to target this demographic through direct education to reduce the incidence of these traffic collisions. Partnered with the Los Angeles Police Department (LAPD)'s Central Traffic Division, SAFE Kids is part of Los Angeles' efforts to reduce traffic caused fatalities to zero by 2015 as part of the LA Vision Zero Program. SAFE Kids focuses on educating elementary school children (4th and 5th graders) regarding safe pedestrian habits while empowering them to encourage their parents to use safe driving habits. It is based on the successful model created as part of Hawaii's Vision Zero Program.

SAFE Kids also ties into the strategies of the Los Angeles Department (LADOT)'s Safe Routes to School Program which is part of a nationwide initiative to encourage students cycling and walking to school by creating safe corridors for them to travel.

The goal of the SAFE Kids project is to reduce the high number of children and young adults who are victims of traffic collisions every year. The target is to reduce severe and fatal traffic collisions with minors in the Central Traffic Division area by twenty percent over the next two years.

5) **How will this grant be used to primarily support or serve a public purpose and benefit the public at-large. (Grants cannot be used as rewards or prizes for individuals)**

SAFE and the LAPD will collaboratively lead an interactive pedestrian safety seminar for 4th and 5th graders. These seminars use interactive techniques to enlighten students on the risks and dangers pedestrians face by role playing safe pedestrian habits and educating on dangerous driving techniques that endanger pedestrians. At the end, students take a simple pledge to practice safe pedestrian habits and become a responsible passenger by educating their parents or other drivers on safe driving habits.

Students are then encouraged to take the pledge home and get their parents and grandparents to sign it. When they bring back the signed pledge, students will receive an LED Pedestrian Safety Light from SAFE and the LAPD to wear while walking. This allows the children to be proactive in direct education of street safety and will reach a much larger audience regarding the subject of traffic safety and dangers on our roads.

The SAFE Kids program will be rolled out to all 97 elementary schools in the Central Traffic Division of the LAPD. This could be expanded to all LA elementary schools in the following years with additional funding.

Center for the Arts Eagle Rock/ The Eagle Rock Music Festival Application for Neighborhood Purpose Grant

NPG Application

Part II -Project Description

1 of 2 Pages

4) Please describe the purpose and intent of the grant

The Eagle Rock Music Festival is produced by the Center for the Arts Eagle Rock, in partnership with the City of Los Angeles Councilmember Jose Huizar. The vibrant annual community street festival is a highly noted local event with citywide appeal. Since 1998, this community street festival has featured a variety of multicultural, and local music. The Eagle Rock Music Festival hosts Los Angeles based acts at various locations along its “main street,” Colorado Boulevard. It is designed to celebrate the various communities in North East LA, along with supporting local businesses, the community, and its culture. The all-ages festival has set itself apart by showing a commitment to booking emerging artists who live and work in the local communities. The Eagle Rock Music Festival has a rich history showcasing inventive, intercontinental, and regional music.

In addition to the live music on all the various stages, the festival includes activities for the entire family; there is a dedicated art area for kids as well as resources shared by community partners. These activities help sustain positive change and healthy neighborhoods.

With your support, the Center for the Arts Eagle Rock and the Eagle Rock Music Festival will continue to present a unique mix of emerging musical, and visual artists along with family activities and community resources to the local community. This North East Los Angeles cultural treasure has maintained its ‘main street’ roots while expanding its wide-ranging appeal to greater Los Angeles.

5) How will this grant be used to primarily support or serve a public purpose and benefit the public-at-large. (Grants cannot be used as rewards or prizes for individuals)

The Center for the Arts Eagle Rock, and The Eagle Rock Music Festival's, mission is to break new ground in providing multidisciplinary arts-inclusive programming to the diverse communities of northeast Los Angeles and beyond.

The Eagle Rock Music Festival is a vehicle to promote our after school and enrichment program, Imagine Studio as well as serve and bring the Northeast Los Angeles community together in celebration of music and art. Over our 19 year history we have brought hundreds of local musicians and artists to the community that represent the surrounding neighborhoods reflecting the diversity and talent of Northeast Los Angeles.

By bringing the arts back into LAUSD and Our communities, we are investing in our youth. We currently serve 2,600 students at 14 elementary and middle schools in Northeast Los Angeles, many of which have Title 1 status, through our after school arts enrichment program, Imagine Studio. Our teachers build their classes into a small community, where freedom of expression feels safe and positive. Taught by local working artists, our classes are highly student-motivated and project-oriented. Furthermore The Eagle Rock Music Festival benefits the North East Los Angeles Communities in the following ways:

- **Music and Art Exposure:** The Center for the Arts Eagle Rock provides local, innovative, and accessible arts programming. We create these opportunities through workshops, after school programming, art camps, and festivals to expose community members to quality music and art. We produce six exhibitions per year, and showcase over 200 local, emerging, and established artists annually in our art auction. Along with Councilmember Jose Huizar, we produce the largest free music festival in Los Angeles, the Eagle Rock Music Festival - which showcases and exposes art of all kinds, as well as giving back to the community and local businesses.
- **Creative Economy:** Through volunteer and paid staff positions, we also contribute to the creative placemaking model and creative economy in LA that employs students and people from diverse backgrounds; thus, giving locals an insight into the music and art industry. On top of this experience, the process provides a deeper link and connection between managers, artist, and brands empowering communities.
- **Free Activations for the Entire Family:** The Eagle Rock Music Festival offers families and community members the opportunity to enjoy high-quality activities for Free. These are available to everyone regardless of socioeconomic status.
- **Community Resources:**
Aside from showcasing music and art, we also host a variety of community resource booths. Typically, this activations feature community partners who share information about Community Resources, Health Programs, Art Programs, Education Services, Scholarship Opportunities, and many other programs/services.

Audubon Center at Debs Park Application for Neighborhood Purpose Grant

NPG Application

4) Please describe the purpose and intent of the grant.

The Audubon Center at Debs Park is requesting \$500 to help raise funds for our annual holiday market, the Arroyo Seco Marketplace. The Arroyo Seco Marketplace (ASMP) is an artisan and vendor fair being held on Small Business Saturday, November 24th from 10:00am - 4:00pm. The purpose of this event is to shine a light on local vendors and artisans that often fail to receive attention during the holiday season due to big box stores. We aim to provide local artisans avenue to sell their wares and offer community members a different type of shopping experience. We are requesting \$500 from Greater Cypress Park NC, which will be divided in 2 ways: \$300 will help fund family activities for the event and \$200 will help pay for promotional printing.

To make an event that appeals to families with children, we are planning activities that anyone can participate in. Last year we had live music from local musician/artist Aztec Stories, a wreath-making station using branches from native plants, screen-printing, and cactus potting stations.

To reach the Greater Cypress Park community, we are requesting \$200 for graphic design, promotional printing, and outreach including banners, flyers, and posters for the event.

5) How will this grant be used to primarily support or serve a public purpose and benefit the public at-large. (Grants cannot be used as rewards or prizes for individuals)

The purpose of the Arroyo Seco Marketplace is to provide local vendors a venue to sell handcrafted products and to showcase the great local art our community has to offer. Through the Arroyo Seco Marketplace, we also hope to create a holiday tradition in our neighborhoods of shopping local during the holiday season and provide a venue for community members to invest in the community.

We will be using this grant to put on an event for community members. In 2017, the Arroyo Seco Marketplace was attended by over 500 people from Northeast Los Angeles. We are hoping to attract more people through promotional printing and more activities. This grant will help fund the printing and activities for our community.

Greater Cypress Park Neighborhood Council,

Healing Urban Barrios (HUB) provides intervention/prevention and re-entry services to youth/young adults, families and communities. HUB promotes self-love, self-worth and self-recognition through a holistic approach using case management, restorative justice, mental health, cultural awareness and education. HUB leadership and staff are deeply invested in the communities they serve because they are from those very communities.

Healing Urban Barrios aims to enhance the quality of life for youth and young adults whom are at risk of unhealthy decision making. Our programs cultivate healing and character development by incorporating strength based self-awareness, family reunification and community engagement. We stand out from other organizations because of our holistic multi-segmented approach, designed to facilitate healing while equipping individuals with crucial life skills and a foundation for character development. As a result, HUB saves lives, preserves families and restores communities.

The participants, families and communities we serve are often plagued with and coping with trauma stemming from the symptoms of economic poverty, including: gang violence, substance abuse, limited resources to address domestic violence and few opportunities to learn and practice self-care. Our communities are in need of numerous resources and support systems to assist in daily living. HUB staff utilize their grass-roots expertise and skills-set to facilitate healing and recovery processes with individuals and families in the very places where they live and work. The primary objective is to equip these community members with the necessary tools to live well and positively impact their family legacy.

Healing Urban Barrios will be providing ongoing evidence based curriculums to community members that in turn will enhance quality of life and prevent at risk behaviors. The Joven Noble Rights of Passage with Writing for Empowerment Group: This 12 week evidence based curriculum takes youth and young adults on a physical/mental and spiritual journey through self discovery and empowerment to gain self confidence and self respect. The group will further allow for youth and young adults to better understand who they are as individuals and equip them with the tools and knowledge on becoming productive members of their communities.

Healing Urban Barrios
www.healingurbanbarrios.org

Parents on a Mission Group: Another evidence based curriculum that takes parents on a 6 week journey on better parenting, communication, and preventative tools to assist children grow happier and healthier. This curriculum emphasizes that parents are the corner stone to our youth and how the actions of parents also contribute to healthy communities. The program will also remind parents of the power of choice and forgiveness of themselves and their children. As a community we must uplift the parents and empower with the confidence to raise strong productive children.

Lastly, Healing Urban Barrios will be providing ongoing job readiness workshops, resume preparation drop-in center, job training and job placement assistance. Additionally, to further engage and retain community involvement, HUB will be providing community resource fairs, medical screening events (dental and medical) and community beautification projects that allow for our clients to take ownership and pride of their community.

The average cost to house an inmate in California Correction center is \$71,000 a year. The average general cost per minor in the juvenile justice ward is \$179,400 a year. The estimated savings of facilitating trainings 30 juveniles and 30 adult clients in the HUB facilitation program will save the Federal Government and State \$7,402,695.00 annually; that is a 99% financial saving in the support of Healing Urban Barrios. Providing evidence based programs to our communities greatly reduces recidivism and detention cost. As communities we must allow for such programming to be delivered on an ongoing basis to allow for growth and change in our young people and parents in need of assistance.

Thank you

We understand that studies must be conducted to determine if an area will work for a bike share program. Our request is simply that you consider us for implementation. Many of our neighbors use public transportation and having a program that would help people get from community hub to community hub would be beneficial. We would love any information you can give us about how we might help actualize this idea.

Thank you,

Cypress Park Neighborhood Council
