

DTSC WORK NOTICE

Department of Toxic Substances Control - Our mission is to protect the people, communities, and environment of California from harmful chemicals by cleaning up contaminated sites, enforcing hazardous waste laws, and compelling the development of safer products.

Application of Dust Suppression Compound July 13 – July 17, 2020 Taylor Yard Parcel G2 – 2850 Kerr St, Los Angeles

The 42-acre Taylor Yard Parcel G2 Site (Site) operated as a rail maintenance yard from the 1930s to 2006. The Department of Toxic Substances Control (DTSC) is overseeing Site investigation and cleanup activities under the California Land Revitalization and Reuse Agreement with the City of Los Angeles (City). The activities described below will begin on July 13.

What type of work is being done?

- Soil-Sement, a dust suppression compound, will be applied to bare soil onsite to reduce dust migration.
- Soil-Sement is commonly used in environmental cleanup work to suppress dust and is not mobile.
- Based on the typical use of this product for dust suppression, DTSC does not believe this product poses a risk to human health or the environment.

Why is the activity being done?

Lead and other metals are in the Site soil near the surface. Applying the dust suppression compound will reduce and stabilize dust at the Site.

Who is doing the work?

The City of Los Angeles General Services Department and its subcontractors under the oversight of DTSC.

How long will the activity take?

- July 13 to July 17, 2020
- Monday - Friday, 7:00 a.m. - 4:00 p.m.

What safety measures will be taken to protect the health of those nearby?

- The Site is fenced;
- Work areas will be monitored by personnel; and
- Onsite vehicle speed will be reduced
